

SERVICES

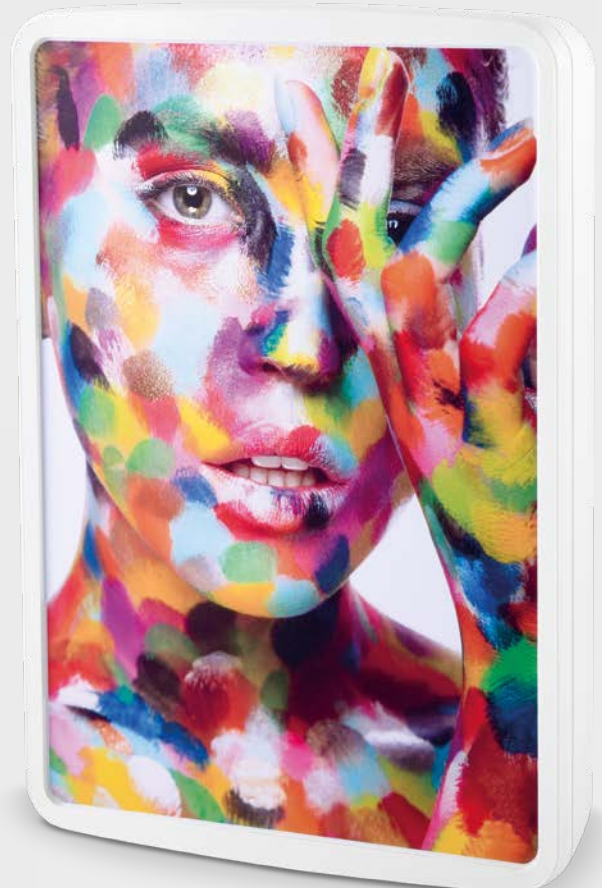

Individual printing

BOPLA
enclosures ■ content matters

DIGITAL PRINTING

- Representation of photo-realistic design / colour gradients
- Low initial costs
- Well suited for realisation of sample series / small series; large series are also possible
- Close-to-edge printing in recessed areas possible
- Ideal for changing layouts e. g. serial numbers
- Artwork can be changed quickly e. g. changes during sampling phase

SCREEN & PAD PRINTING

- High coverage
- Special colours available
e.g. gold, silver, etc.
- Extremely tough and durable

LASER MARKING

- Low initial costs
- Ideal for changing layouts,
e.g. serial numbers, QR codes,
model designations, etc.
- Abrasion-resistant

SERVICE

CONSULTATION

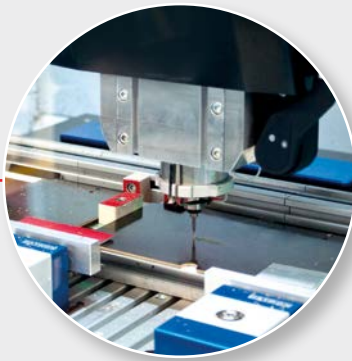

- Specification
- Preliminary calculation

CONSTRUCTION

- Prototype construction
- Modification of standard enclosures
- Individual enclosures
- Consultation

PROCESSING

- Milling
- Drilling
- Countersinking
- Punching
- Sawing

FINISHING

- Printing
- Lacquering
- Engraving
- Laser marking
- EMC screening

ASSEMBLY

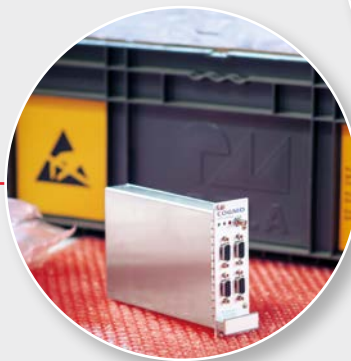

- Integration of membrane keypads/HMI
- Mounting
- Wiring
- Cable assembly

TESTING

- IP test
- IK test
- Climate test
- EMC test

PACKAGING

- Packaging suitable for ESD
- Individual packaging
- Returnable packaging
- Logistics concepts
